

SANTHOSH KUMAR B

ASPIRING FULL STACK PYTHON DEVELOPER

9345486145 | santhosh1272006@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Aspiring Full Stack Python Developer with a B.Com (Computer Applications) background and hands-on experience designing and deploying five independent, responsive web projects, including two built end-to-end with AI tools. Comfortable across Python fundamentals, HTML/CSS/JavaScript, SQL, MongoDB basics, and Git/GitHub version control. Also brings practical accounting-software experience (Tally ERP, Excel) from a client-facing internship. Reliable, fast-learning, and looking for an entry-level software development role to build production-grade skills.

TECHNICAL SKILLS

Languages	Python, C/C++ (basics), JavaScript
Web	HTML5, CSS3, responsive layout & design, front-end deployment
Database	SQL, MongoDB (basics)
Version Control	Git, GitHub, GitHub Pages (deployment)
AI Tools	AI-assisted development (building and refining web projects)
Tools	Advanced Tally ERP with GST, MS Excel, MS Word, PowerPoint
Foundations	Networking basics, Intro to Cybersecurity
Soft Skills	Problem-solving, teamwork, time management, adaptability, fast learner

PROJECTS

Mann Vaasam — Farmer-to-Customer E-Commerce Platform

- Designed and built a responsive e-commerce web platform connecting farmers directly with customers to enable fairer pricing by removing middlemen.
- Implemented product listing pages, category navigation, and a mobile-friendly layout using HTML, CSS, and JavaScript.

[View Project →](#)

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio to showcase skills, projects, and certifications to recruiters.
- Built with a mobile-first layout and clean navigation to highlight project links and contact details.

[View Project →](#)

Bikes — Product Showcase Website

- Built a responsive front-end product showcase site to display bike listings with images, specifications, and pricing details.
- Focused on clean UI structure and cross-device responsiveness using HTML/CSS.
